

For Loops

Use loops to print out the elements in the list `A`

In [2]:

```
A=[1,2,3,4,5]
for a in A:
    print(a)
```

```
1
2
3
4
5
```

While Loops

Find the value of `x` that will print out the sequence `1,2,...,10`

In [5]:

```
x=11
y=1
while(y< x):
    print(y)
    y=y+1
```

```
1
2
3
4
5
6
7
8
9
10
```
