

Create a Tuple

create the Tuple (0,1,2,3) and assign it to the variable A :

In [1]:

```
A = (0,1,2,3)
```

Find the elements of a Tuple

Find the first two elements of the Tuple A :

In [2]:

```
A[0:2]
```

Out[2]:

```
(0, 1)
```

Lists

For the next few questions, you will need the following list:

In [4]:

```
B=["a","b","c"]
```

Find the first two elements of the list B :

In [5]:

```
B[0:2]
```

Out[5]:

```
['a', 'b']
```

Change the first element of the list to an uppercase "A"

In [8]:

```
B[0] = 'A'  
B
```

Out[8]:

```
['A', 'b', 'c']
```
